Dell <> Pestel <> Xavier

---

In March of 2024, an 11 year old nepali kid Abyesh Thulung killed himself after countless bullying, and harassment from his peers from National Inventors Hall of Fame ("NIHF") Middle School. The surprising bit is how the school refused to do anything about this harassment and bullying. Even after the parents of the kid reported this multiple times, the school and the district didn't take any actions to stop this bullying instead they ended up suspending Abyesh instead. A lawsuit was filed 02/26/25 against Akron Public School and National Inventors Hall of Fame ("NIHF") Middle School. Next section of this document will be the case file overview done by Dell.

## *Case Files Overview*

---

Dell, went through the entire case file, below will be a link to where you can find and review the file itself. When the reviewing the case files we found out the Defendants were accused of the following

1. Supervisory officials knowingly acquiesced in unconstitutional conduct regarding bullying and harassment.
2. Failure to act on known bullying incidents leading to Abyesh's wrongful death.
3. Destruction of evidence relevant to the case.
4. Denial of Equal Protection on the Basis of Race and/or National Origin.

These were the main points from the entire case overview that really caught our eyes. The most important and serious one is the third one. Destroying evidence to try and win a case is a bitch move.

## *Informations*

---

Welcome to the information section of the Pamphlets. Before you continue looking over all the information regarding each one of the defendants. I think we should quickly add a note. All the sensitive information like SSN, and other data that we got on these people are private. The reason being is it's unnecessary and will cause more drama. We're keeping this information private because if nothing comes of this trial we can target each one of these guys individually.

Anyways, let's meet our defendants.

- Michael Robinson - Superintendent | Akron Public Schools.
- Amanda Morgan - Principal | NIHF Middle School
- Denise Behary - Assistant Principal | NIHF Middle School
- Jessica Farrell - Assistant Principal | NIHF Middle School
- Sheneeka Rodger - Counselor | NIHF Middle School
- Kasey Jones - Teacher | NIHF Middle School
- Kallie Walker - Teacher | NIHF Middle School
- Lisa Whiddon - Nurse | NIHF Middle School

Before we continue, ask yourself this—these people are responsible for your kids eight hours a day, five days a week. If they ignored one case of harassment and even destroyed evidence, do you really trust them with your children?

---

Michael Robinson

the superintendent of Akron Public Schools. Signed a five year contract with Akron Public Schools in the summer of 2023. Michael started 2025 off being under investigation. Crazy how he's already under investigation. Here are the key points of the investigation files that Fold has gotten its hands on.

1. Violation of Public Records Law – Used Gmail's "confidential mode" to send disappearing emails, which may violate public records laws and board policy.
2. Retaliation – Allegedly changed the director of facilities' position after he raised concerns about workplace dynamics and staff treatment.
3. Workplace Misconduct & Hostile Environment – Accused of creating a toxic work environment, including excessive workloads, unwarranted criticism, and unprofessional treatment of staff.
4. Misogyny – Allegedly referred to female reporters with a derogatory term.
5. Verbal Abuse & Bullying – Yelled at staff in meetings, causing distress among employees, some of whom left meetings in tears.
6. Board Member Harassment – Accused of bullying and yelling at a board member during a Zoom meeting, calling her a "headache" and a "backstabber."

Now that we got that investigation section out of the way let's look at his first year performance overview. This overview was written by the Board of Education and it takes a look at all the things Michael needs to work on.

1. Relationship Building – Needs to build stronger, collaborative relationships with the treasurer, board members, staff, and community.
2. Effective Communication – Must ensure all communication is professional, clear, direct, respectful, and constructive.
3. Public Leadership – Needs to provide professional leadership to inform and engage the public more effectively.
4. Infrastructure Solutions – Must develop creative and innovative solutions to address aging buildings and facilities.

Crazy how even the board of education knows about his communications issues and yet he's still the superintendent.

Full Name - Michael Robinson Jr.

SSN - Private

Face Reveal -

Rest will come soon, we just got lazy asf. We will finish the rest of the doxes and release more info as the case carries on.

### *Notes & Credits*

---

This document is not finished. Below are the members of Fold that contributed to this document.

- Dell - Formatting & Typing
- Pestel - Info Gathering
- Xavier - moral support

Thank you for taking the time to read this document. I just want to say our heart goes out to Abyesh's family, and may Abyesh rest in peace. Hopefully they win this case.

Until next time
